

AZURO WARRIOR 2

FILTER WATER VOLUME 14M³/H | CLEANING CYCLE 2 HOURS | CLEANS BOTTOM & WALL

Designed for all types of above ground and inground pools including those with profiled bottom and wall. Modern technology for maximum ease of maintenance of a clean pool and water.

It works completely on its own and automatically cleans the bottom, without the need for a filter unit. With the revolutionary practical filter basket, maintenance of this vacuum cleaner becomes fun. The Swivel, takes care of preventing cable tangles and thanks to the innovative FocusFlow technology, concentrated suction, it handles common debris smoothly and returns beautifully clean, filtered water to the pool.

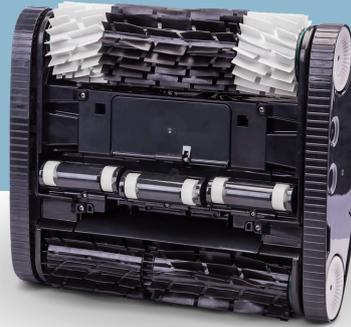

Advantages:

- **Attractive design**
- **Easy to use**
- Cleans the pool **walls & floor**
- **FocusFlow technology** with side suction
- Exclusive **swivel mechanism** to prevent cable tangling
- Practical, user-friendly, and extra-large filtration basket
- **Transparent lid** for easy inspection of the filtration basket

FocusFlow technology with side suction

The cleaning performance is enhanced by targeted suction, which sucks up the sides and bottom.

Large basket for collecting mechanical debris
with handles for easy removal.

Replaceable and washable filter

Transparent lid for easy control of the filter basket.

Exclusive swivelling and anti-tangle cable mechanism
Prevention of cable entanglement.

Logistic data

Item no	3EXX0487
Time of cleaning cycle	2 hours
Filtering ability	50 µm
Filter water volume	14 m ³ /h
Cable length	16 m
Motor	1
Navigation system	basic
Cleans bottom / wall	bottom / wall
Quantity on palette	18 pcs
Packing	43 x 43 x 44 cm / 11,5 kg
