Innovative energy efficient enduring Turbo Pump

Hydro 4 employs turbine technology for heightened efficiency, saving time and energy. Its high durability extends the robot's lifespan, delivering an uncompromisingly thorough cleaning experience.

5,070 GPH

Effective Filtration

Removes

Leaves

Twigs

Sands

Hair

Double Suction

Dual inlet delivers strong flow and enables steady vertical movement.

Dual Filter Setup

Dual chamber design impressively traps pool debris.

Nylon Filter

Traps dust, leaves, bugs and twigs for cleaner water

Superfine Cloth Filter (Optional)

Enhances water filtration and captures fine particles

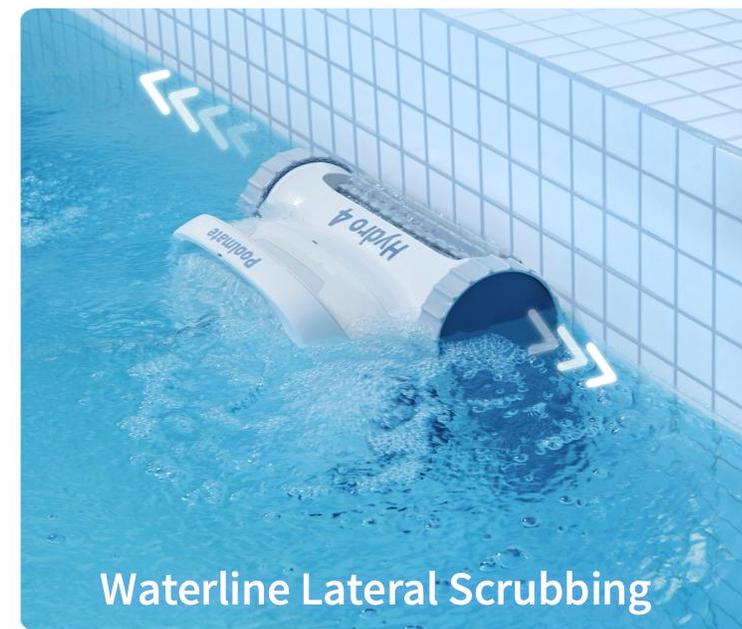

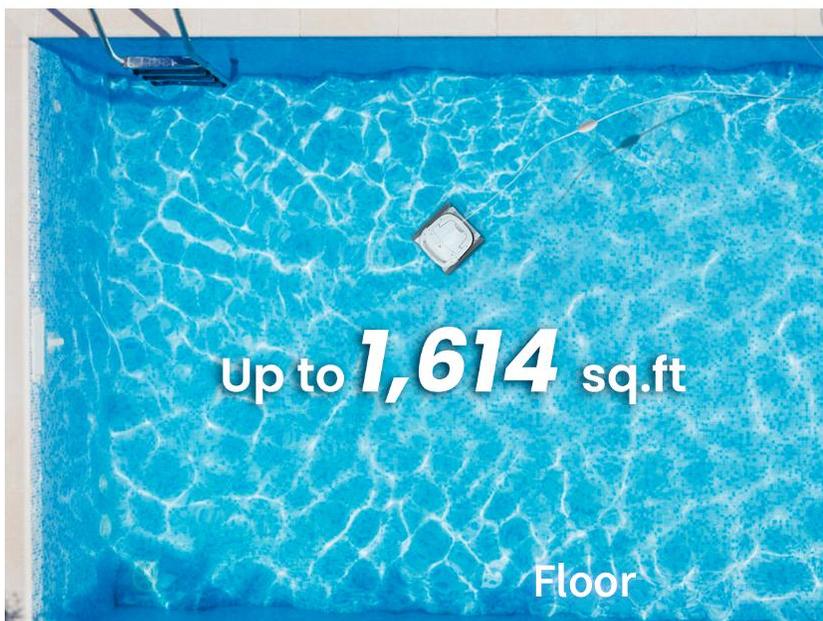

4.1L Capacity, Easy-Clean Filter

Features a quick-release design and a 4.1-liter capacity, for easy maintenance and efficient performance.

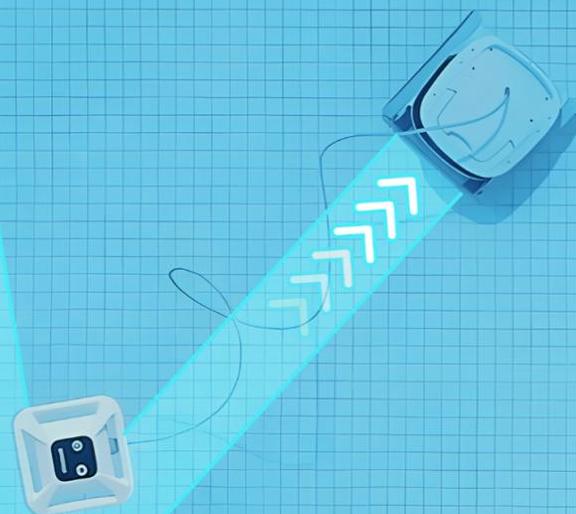

Comprehensive Coverage

Anti-resonance algorithms optimize navigation, complementing the high-powered drive system to enable free movement, agile turning, and wall-climbing to thoroughly clean the entire pool - floors, walls, and waterline.

Marathon Cleaning Performance

High-Capacity 14,400mAh Battery, 3.5 Hours of continuous runtime.

14,400mAh

Battery High-Capacity

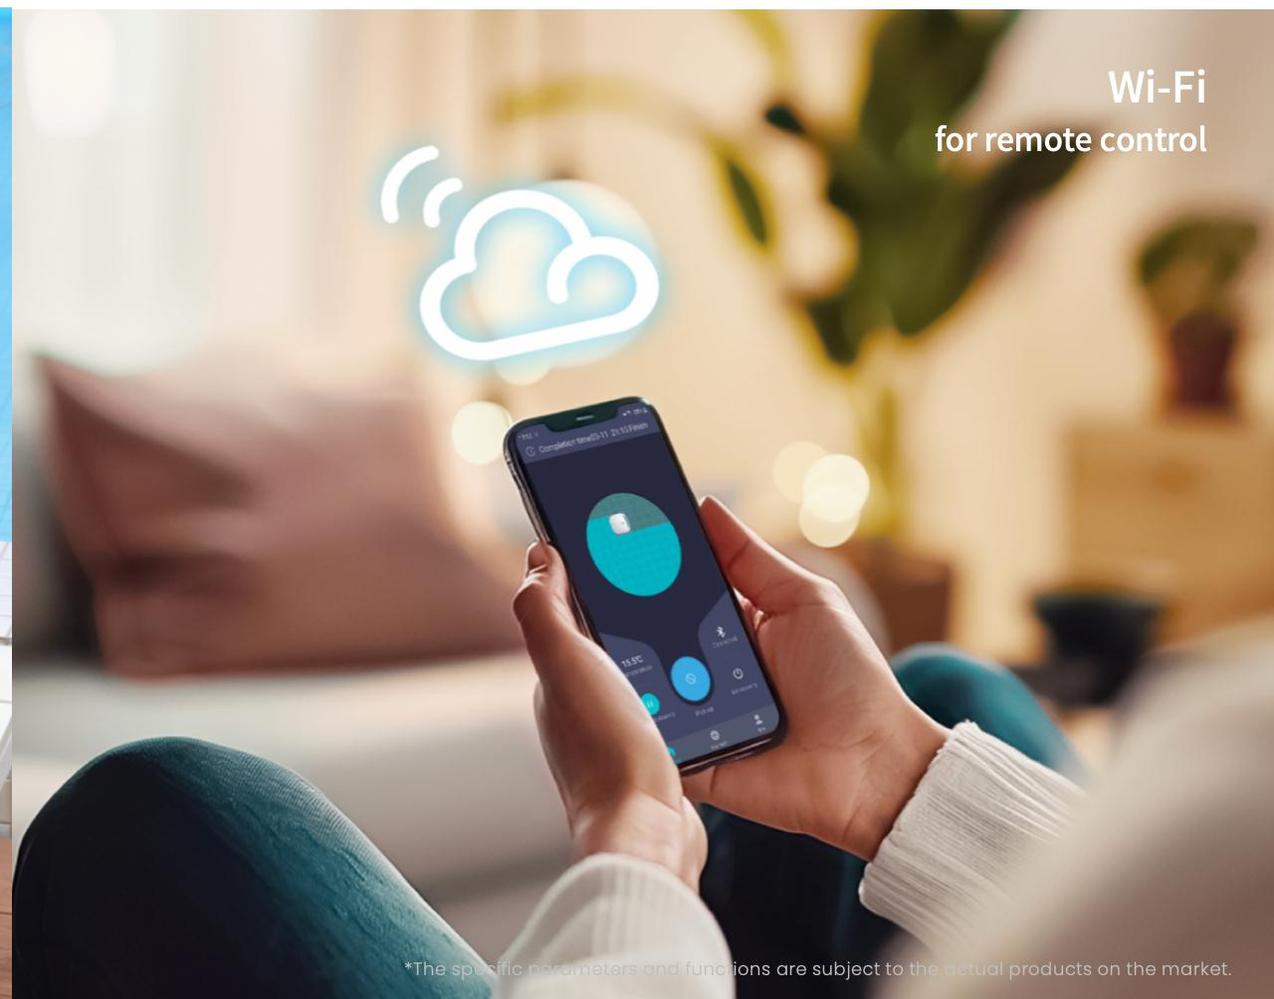

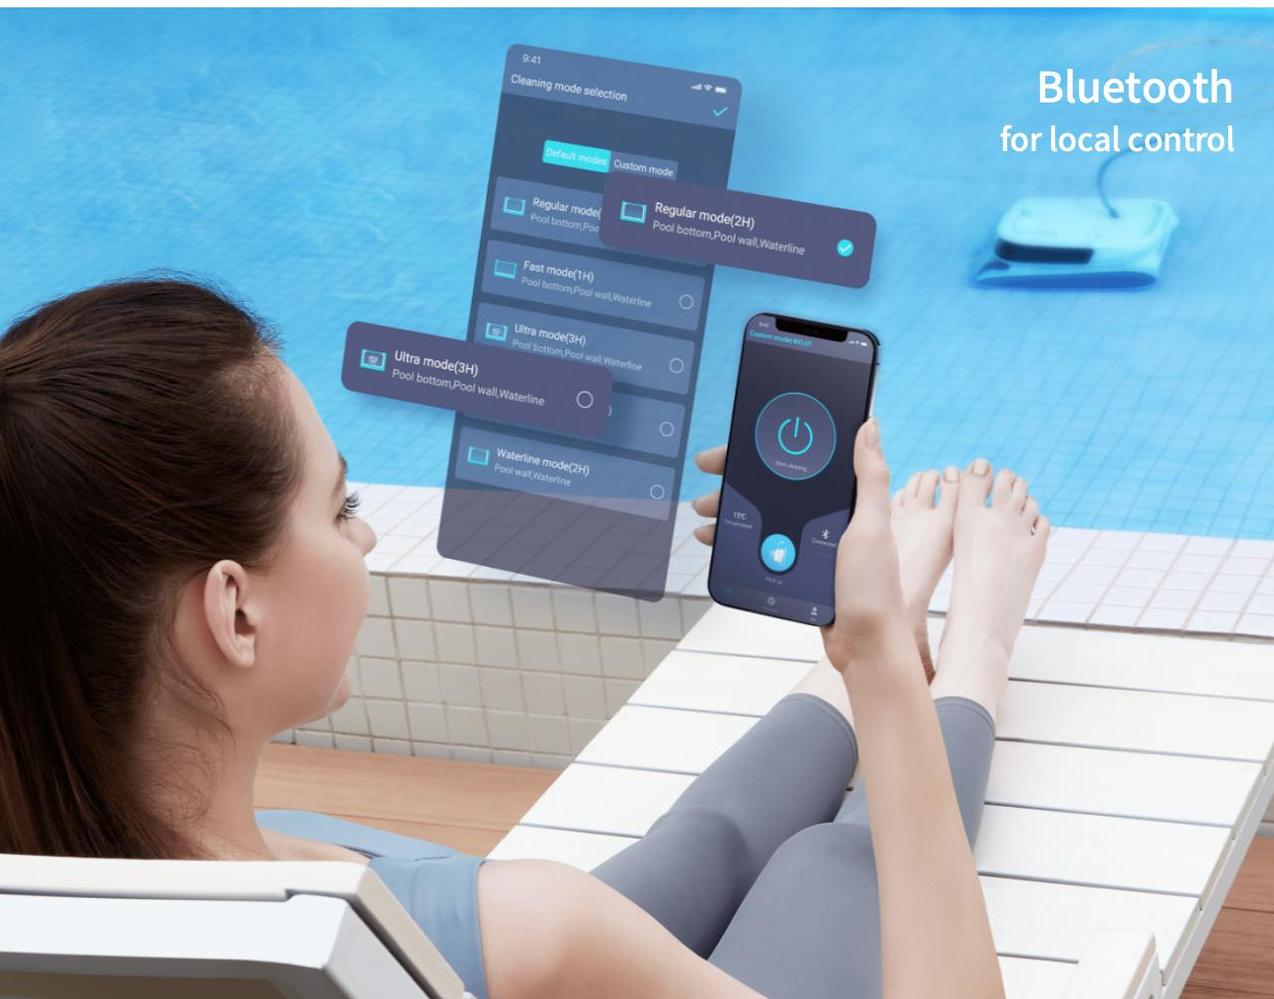

3.5 Hours

of Continuous Runtime

Intelligent Control

Hydro 4 utilizes Bluetooth for local control and WiFi for remote access.

With the dedicated app, enjoy easy, convenient control from anywhere, ensuring your pool stays pristine.

Parameters (Corded)

Dimension of robot	398x405x253mm	Cleaning area	Auto (Floor+Walls+Waterline) Wall enhanced (Floor+Walls) Floor only
Weight of robot	6.5kg	Filtration capacity	Up to 320L/min
Dimension of control box	290x170x130mm	Filter Precision	180µm Hyper-fine 1µm (Optional)
Weight of control box	1.5kg	Movement speed	12m/min
Cable length	15m	Active brush	Support
Rated input voltage	AC 100-120V/200-240V,50-60Hz (Refer to the product label for the actual usable voltage)	APP	Support
Input Power	Peak 150W	Remote Control	Support
Working depth	0.5-3m	Water temperature display	Support

Parameters (Battery)

Dimension of robot	398x405x253mm	Working depth	0.5-3m
Weight of robot	6.5kg	Cleaning area	Auto (Floor+Walls+Waterline) Wall enhanced (Floor+Walls) Floor only
Dimension of buoy	294x294x145mm	Filtration capacity	Up to 320L/min
Weight of buoy	2.5kg	Filter Precision	180µm Hyper-fine 1µm (Optional)
Battery Capacity	14400 mAh	Movement speed	12m/min
Battery running time	Up to 3.5H	Active brush	Support
Power	Peak 150W	APP	Support
Charging time	4H	Remote Control	Support
