EU VERSION

2025 - 2026

Enjoy the **MOMENT**

As a globally renowned spa provider, we focus on bringing luxury spa experiences to more homes, easier. Find peace for your mind, body, and soul in our modern portable spas packed with high-tech features and aesthetic design. Get healthy, enjoy life, and Enjoy the Moment with MSpa.

MSPA HISTORY

2008
THE FIRST OF ITS KIND

Introduced the first I-BEAM structure portable spa with a built-in control box.

2011

Released the first inflatable jet spa in the world.

2015
LEADING THE INDUSTRY

Launched the first inflatable jet spa with a built-in pump.

2005
WHERE IT ALL BEGAN

Launched the first portable jet spa in the world

mSpa

2026

THE FUTURE IS UNFOLDING

NEXT IS NOW

Experience the future at MSpa with even more astonishing rigid portable spas.

2023

RETHINKING PORTABILITY

The first rigid portable spa.

2021
THE EVOLUTION

Unveiled the first auto-inflated spa.

VERTO SERIES

MEET THE FUTURE TREND

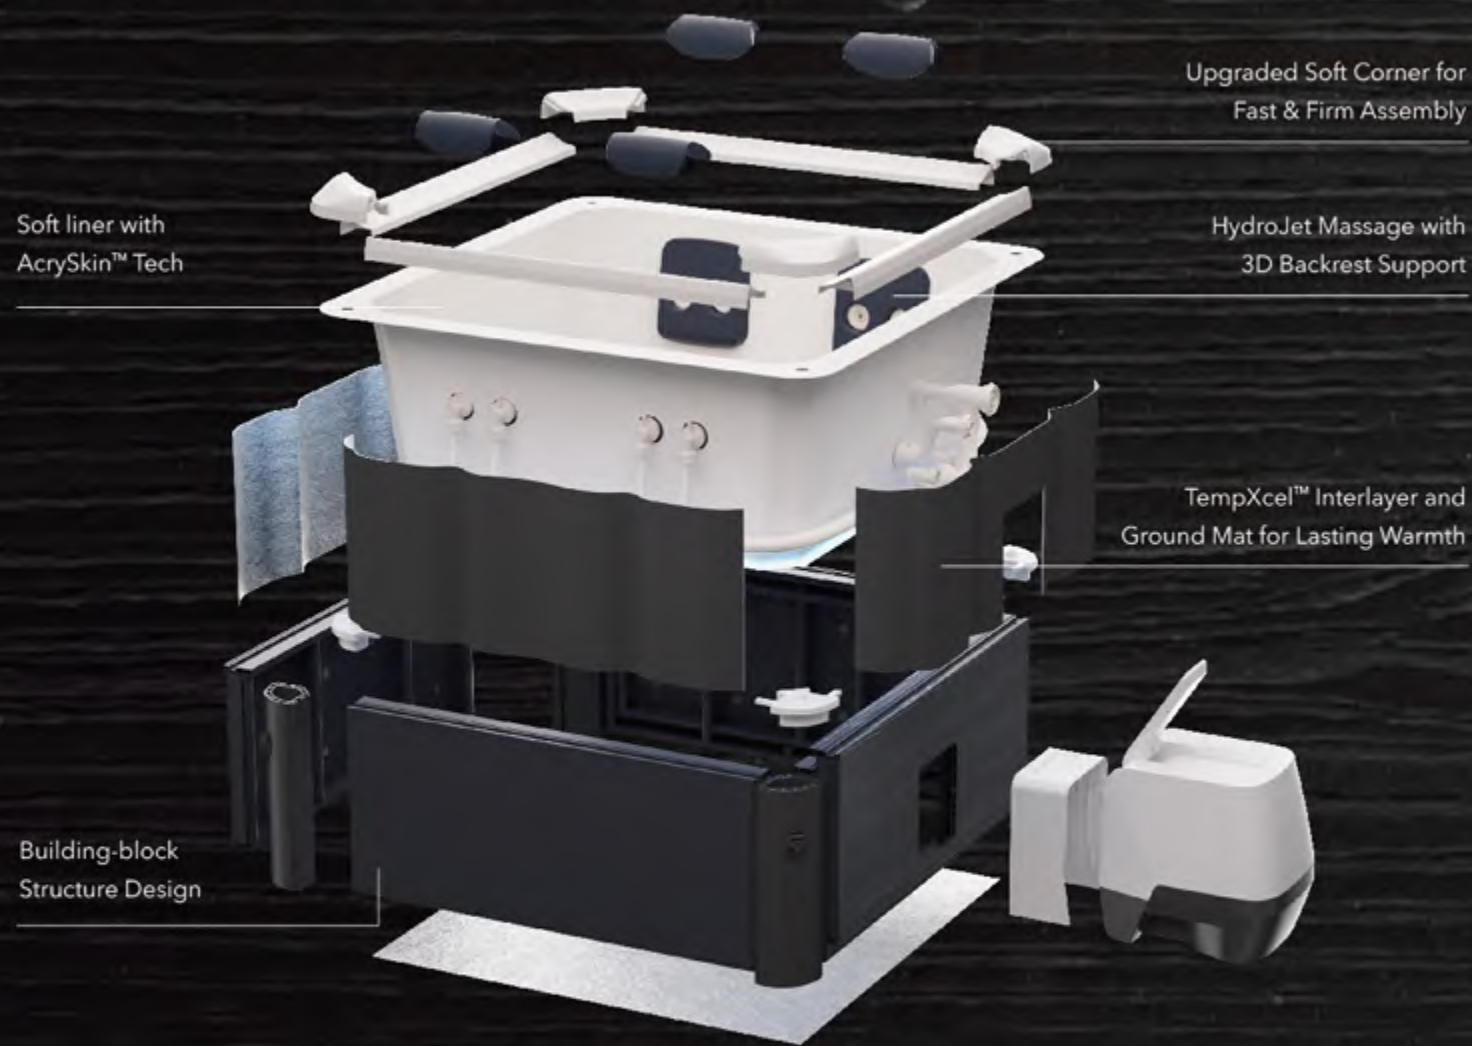

FRAME SERIES

Neither oversized luxury nor flimsy inflatables can meet the evolving needs of today's lifestyle. The FRAME Series redefines what premium means—elevated design, uncompromising comfort, and portable ease, all in one.

Sleek, modular, and smarter by design, it's the new standard for how relaxation should look and feel.

THE CLASSIC STRUCTURE

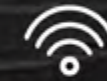

HydroJet Massage Plus

Engineered with a powerful 1100W pump, this system delivers deep, targeted hydrotherapy. Adjustable intensity lets you customize both water flow and massage strength to suit your mood. Paired with an ergonomic backrest, it ensures a comfortable, therapeutic experience that feels as good as it looks.

MSpa Link 2.0

Control your spa anytime, anywhere. Now enhanced with the TASK module for effortless maintenance and smart management.

TempXcel™ Interlayer

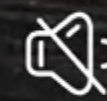

Boost heating efficiency by up to 14% and reduce thermal energy use by 38%—in just 24 hours. Also provides protective cushioning during transport. * TRIBECA Excluded.

AcrySkin™ Material Liner

Enjoy the flexible comfort of soft material with the easy-to-clean durability of advanced acrylic coating.

Whispa™ Silent Motor

Hear only the water—not the motor. Fully immerse in soothing bubbles and pure tranquility.

Light Up The Night

Remote-controlled lighting for evening ambience. Equipped with 20 static colors and 21 dynamic effects.

- MSpa Link Control: Control your spa anytime, anywhere.
- HydroJet Massage Plus: Powerful, targeted jets with adjustable pressure.
- Whispa™ Silent Pump: Hear the water, not the motor.
- Smart Heating: Automatically adjust power to save energy and heat faster.
- TempXcel™ Interlayer: Enhance heat retention and reduce energy loss.

- 3-Speed Bubbles: Switch between bubble intensity levels.
- Smart Filtration: Keep water clean with minimal effort.
- UVC Plus Sanitizer: Eliminate harmful bacteria for safer soaking.
- AcrySkin™ Liner: Stain-resistant, easy to clean and long-lasting.
- Create ambient lighting for evening relaxation.

THE CIRCULAR STRUCTURE

MSpa Link 2.0

Control your spa anytime, anywhere. Now enhanced with the TASK module for effortless maintenance and management.

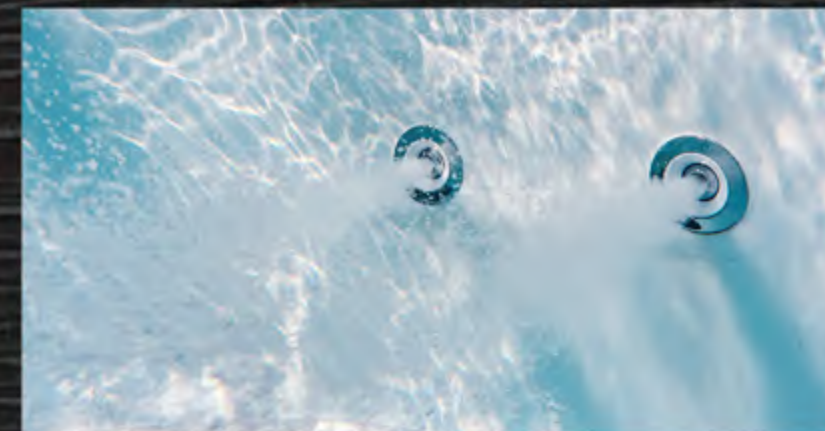

TempXcel™ Interlayer

Boost heating efficiency by up to 14% and cutting thermal energy use by 38% in just 24 hours. Also works as protective cushioning during transportation.

EcoPulse™ Hydro Jet

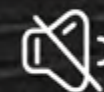

Smarter engineering, better performance. Our 750W system uses Bernoulli and Venturi principles to replicate the power of a 1100W jet—enhancing flow while reducing energy use. The nozzle direction is adjustable for targeted comfort, delivering an efficient, eco-friendly hydrotherapy experience.

* Jet intensity not adjustable.

AcrySkin™ Material Liner

Combines the soft comfort of flexible materials with the easy-to-clean performance of advanced acrylic coatings.

Whispa™ Silent Motor

Hear only the water—not the motor. Fully immerse yourself in soothing bubbles and pure tranquility.

Light The Night Up

Equipped with a pre-installed LED light strip with remote control which offers 20 static colors and 21 dynamic lighting effects.

Stronger Structure, Easier Setup

Designed with user-friendly mortise-and-tenon joints, the side panels connect effortlessly and stay firmly in place. The rounded design ensures balanced water pressure distribution, enhancing both structural integrity and long-term durability. Setup is faster, soaking is safer, and performance lasts longer.

With Real Wood Finish

Headrests For Better Soaking

- MSpa Link Control: Control your spa anytime, anywhere.
- EcoPulse™ Hydro Jet: Strong massage power with lower energy consumption.
- TempXcel™ Interlayer: Enhance heat retention and reduce energy loss.
- Whispa™ Silent Pump: Hear the water, not the motor.
- Smart Heating: Automatically adjust power to save energy and heat faster.
- 3-Speed Bubbles: Switch between bubble intensity levels.
- Smart Filtration: Keep water clean with minimal effort.

THE GREENER WAY TO RELAX

VERTO SERIES

At MSpa, we're committed to creating products that care—for both you and the planet.

The VERTO Series combines energy-efficient engineering with eco-conscious materials, helping you enjoy every soak with less impact and more peace of mind.

INFLATED, BUT RIGID

Our ultra stiff DWF material is unlike any traditional inflatables. Tens of thousands of high-strength threads are pulled taut to support the spa from within and prevent stretching while adding superior stiffness. The material allows us to keep the inflatable liners aesthetically thin without losing performance.

* Tidal / Mono / Duet / Naval.

BUILT RIGID, MADE TO SAVE

Crafted from dense EPE foam, the body holds a defined shape that looks and feels solid and sturdy. It remains lightweight while enhancing heat retention—saving energy, boosting comfort, and supporting sustainability.

* Cocoon.

Variable Speed Bubble

Personalize the intensity of your air bubble massage.

UVC Plus Sanitizer

The built in UVC sanitizer can kill bacteria without any harm to the user.

MSpa Link 2.0

Control your spa anytime, anywhere. Now enhanced with the TASK module.

Anti-icing System

As long as your spa is in standby mode, the spa will monitor the water temperature and prevent it from freezing.

ALL-IN-ONE CONTROL BOX

Our compact all-in-one control box puts every function at your fingertips—smart, streamlined, and easy to use. Despite its smaller size, it delivers full performance with intuitive operation.

Select models now come equipped with JET functionality, offering even more versatility in a single efficient unit.

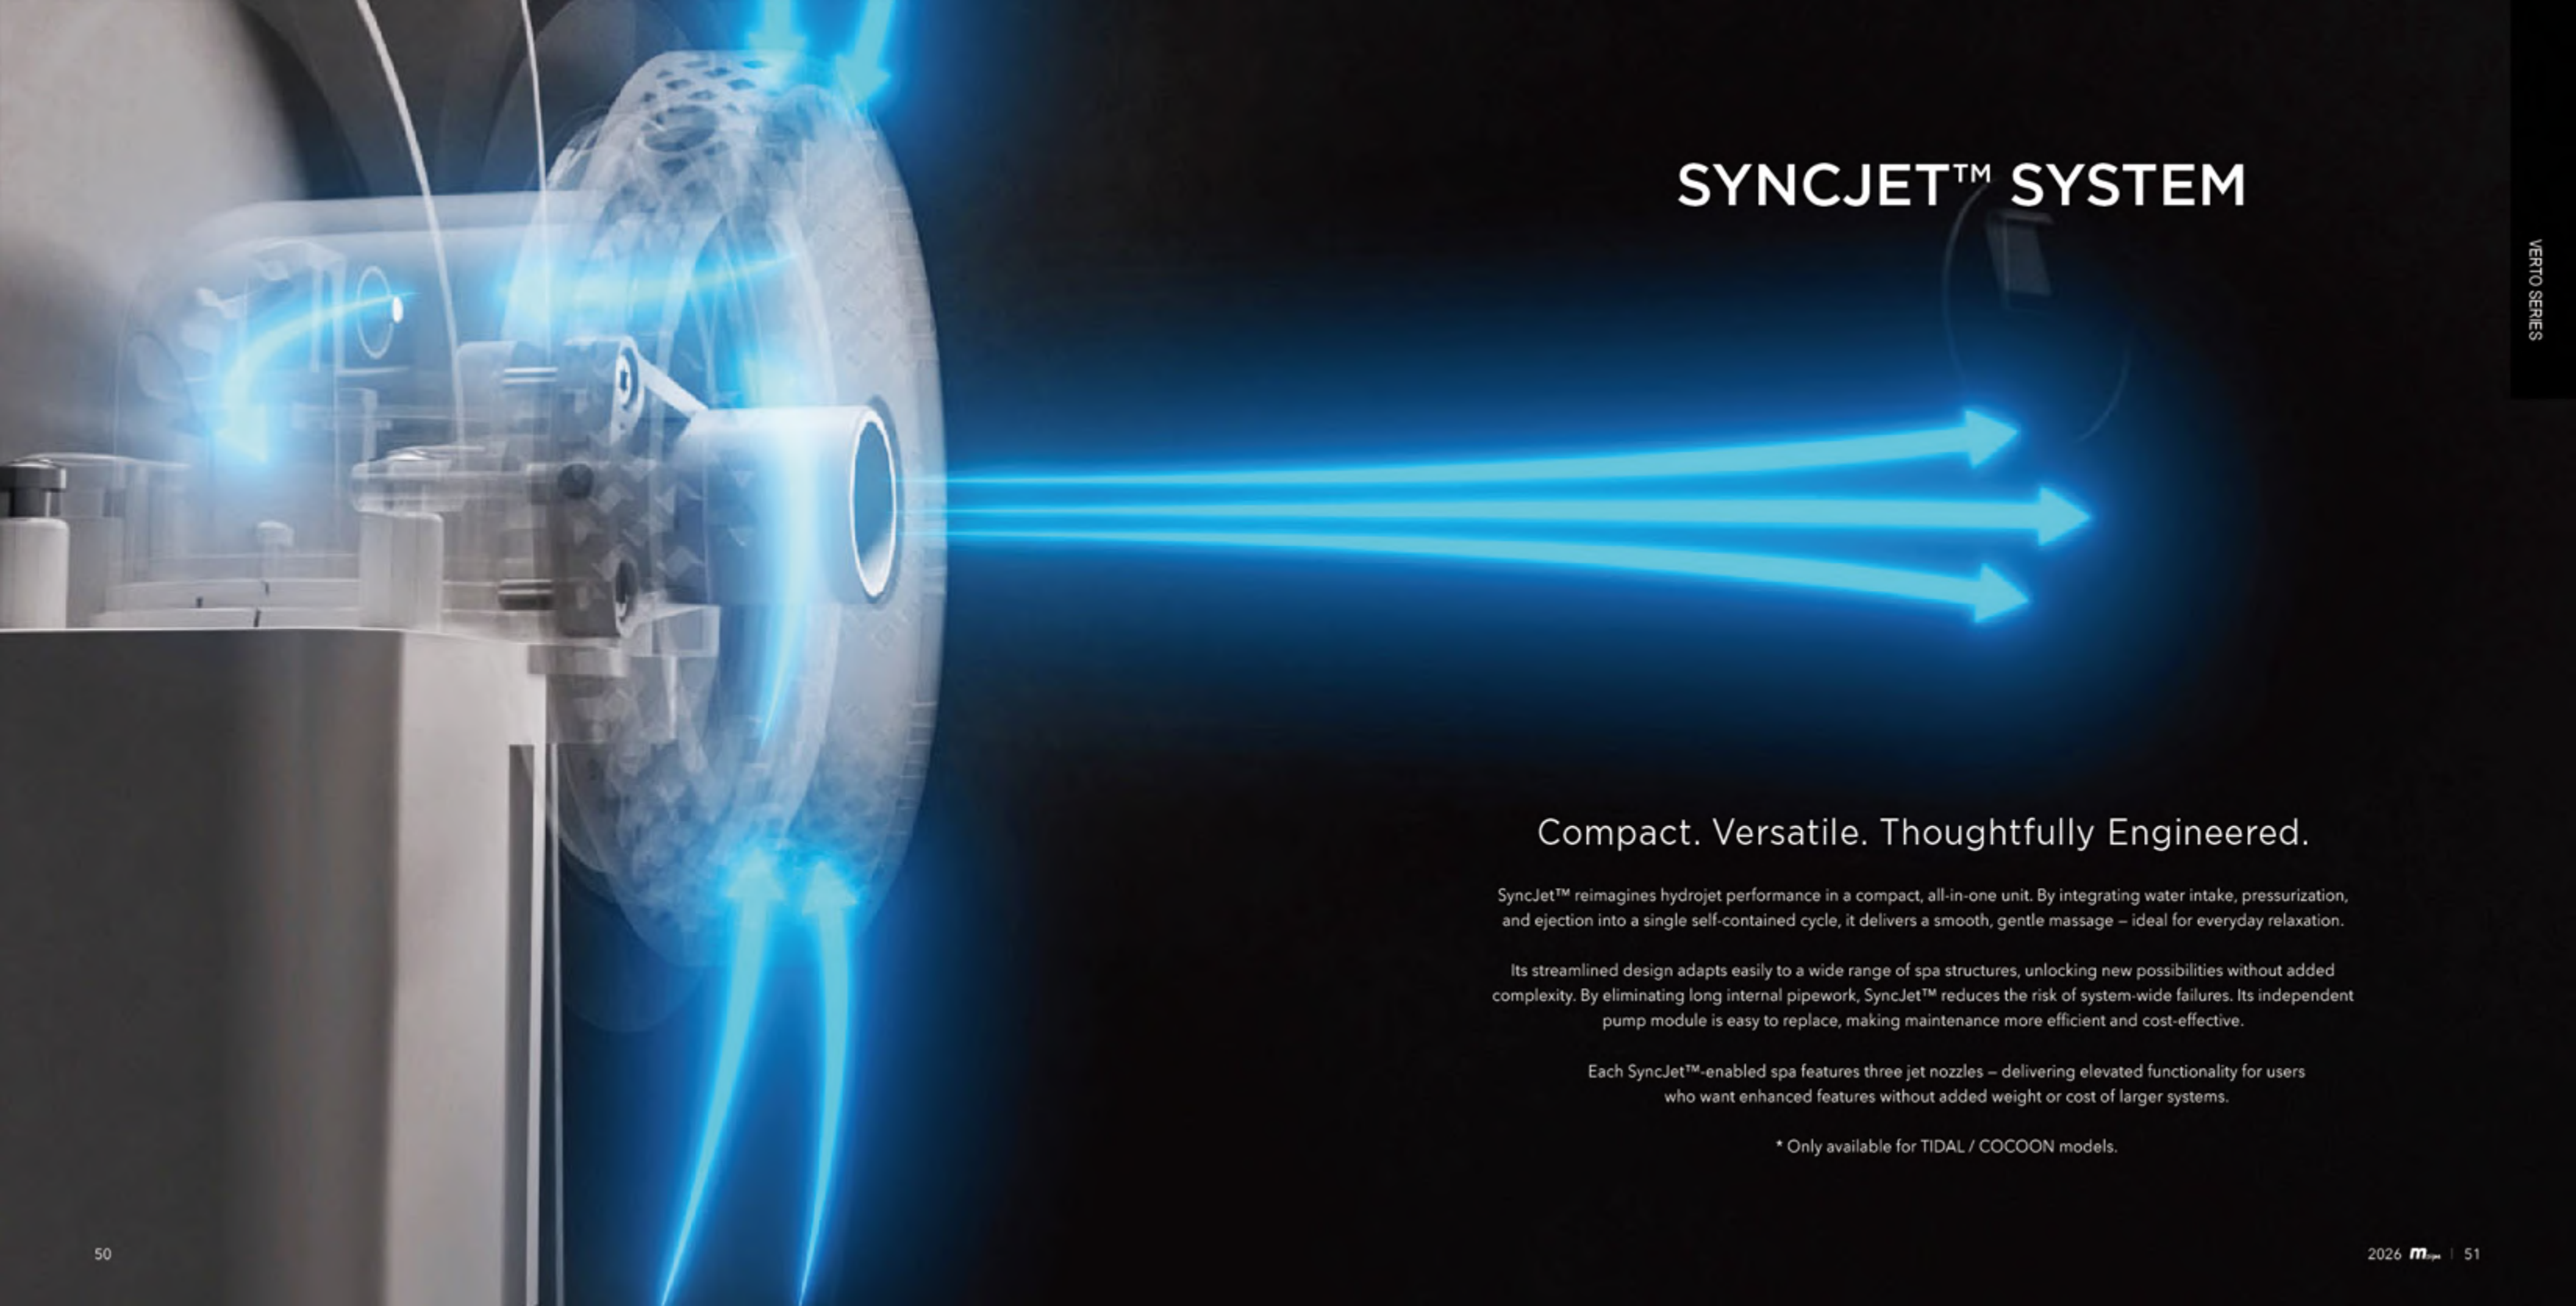

ECO PACKAGE

Say goodbye to plastic packaging bags and cushioning – we've replaced them all with recyclable paper materials. Not only does this move reduce plastic waste and contribute to a cleaner planet, but it also ensures that our packaging aligns with our eco-conscious values.

ECO PRINTING

Harnessing the power of high-precision ink nozzles, this innovative method crafts intricate patterns while utilizing minimal ink. With an astounding ink-saving rate of up to 90%, it stands at the forefront of eco-conscious practices. Now featured in all Tidal, Mono, Naval and Duet models, our eco-printing technique represents a bold stride towards sustainability, where elegance and environmental responsibility harmoniously converge.

SYNCJET™ SYSTEM

VERTO SERIES

Compact. Versatile. Thoughtfully Engineered.

SyncJet™ reimagines hydrojet performance in a compact, all-in-one unit. By integrating water intake, pressurization, and ejection into a single self-contained cycle, it delivers a smooth, gentle massage – ideal for everyday relaxation.

Its streamlined design adapts easily to a wide range of spa structures, unlocking new possibilities without added complexity. By eliminating long internal pipework, SyncJet™ reduces the risk of system-wide failures. Its independent pump module is easy to replace, making maintenance more efficient and cost-effective.

Each SyncJet™-enabled spa features three jet nozzles – delivering elevated functionality for users who want enhanced features without added weight or cost of larger systems.

* Only available for TIDAL / COCOON models.

- MSpa Link Control: Control your spa anytime, anywhere.
- SyncJet™ System: Built-in self-priming pump for compact jet operation.
- Quick-install Foam Structure: Sturdy walls with enhanced thermal insulation.
- 3-Speed Bubbles: Switch between bubble intensity levels.
- PTC Safe Heating: Safe, efficient heating up to 40°C (104°F).
- Smart Filtration: Keep water clean with minimal effort.
- UVC Plus Sanitizer: Eliminate harmful bacteria for safer soaking.
- M-shield™ Fabric: Antibacterial liner reduce bacterial buildup.
- All-in-one Control Box: Compact, integrated and full-featured.

Lock in the Warmth

The 10cm-thick, high-density EPE foam panels act as a robust thermal barrier, shielding the spa from ambient cold air. Lab tests show that with COCOON, water heats up to 2.6°C/h, helping consumers reduce energy consumption as little as 3-6 KWh per day.

Easy Setup, Thoughtfully Designed

COCOON features pre-slotted foam panels and a self-supporting structure that make setup smooth and effortless. The open-end panel is wrapped in a precision-fit sleeve, requiring minimal alignment. With just two people and about 15 minutes, your spa is ready – no tools, no hassle.

TEXTILE-INSPIRED DESIGN

Wrapped in the warmth of home. The exterior features a cozy, rug-like texture that evokes comfort and calm—like being gently cocooned in a space that feels safe, soft, and familiar.

ALL-IN-ONE CONTROL BOX

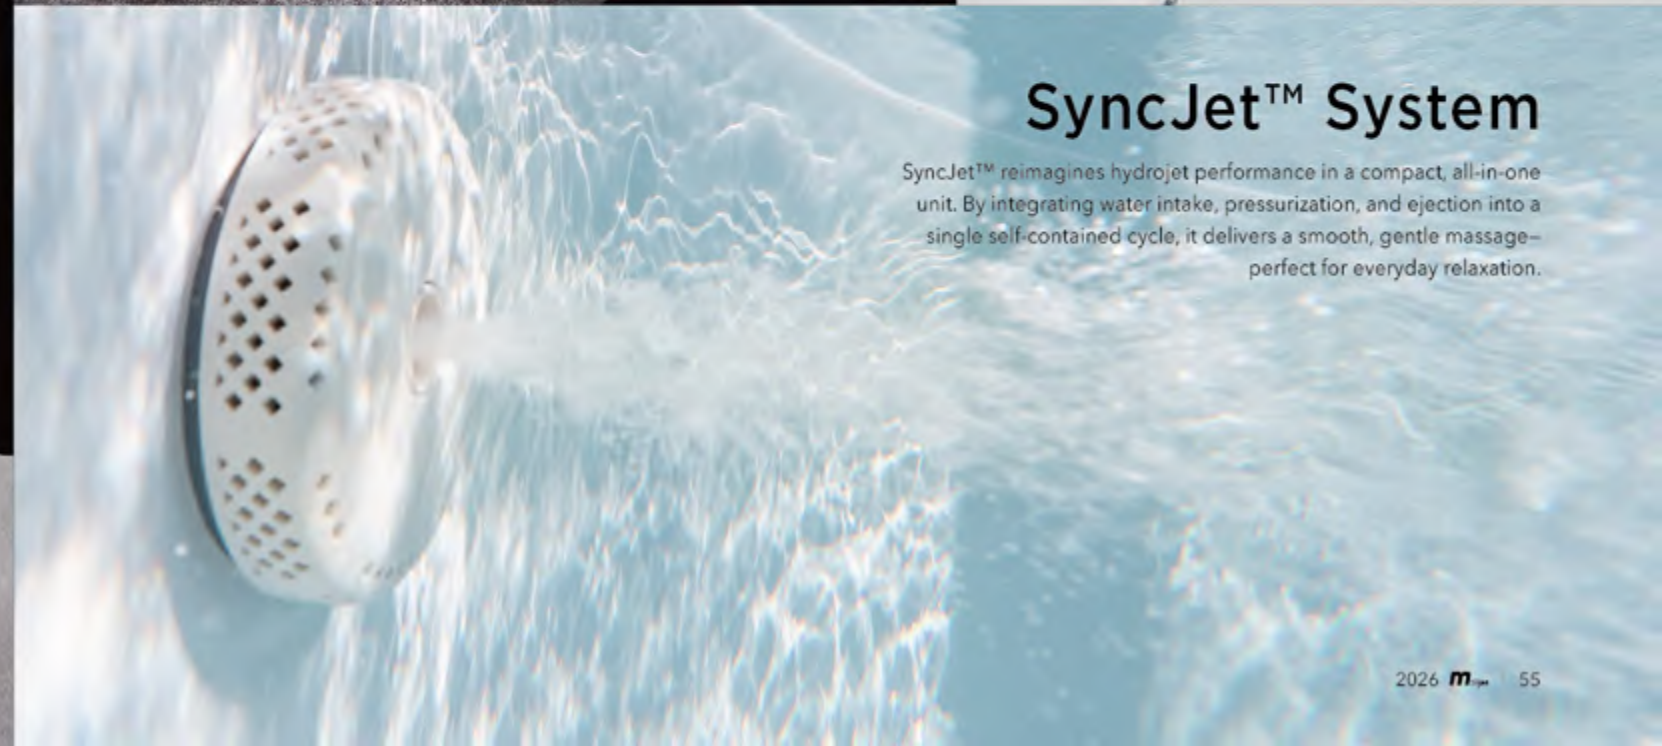

Our compact all-in-one control box combines smart, streamlined functionality in a single, intuitive unit. Despite its smaller size, it delivers full performance—now with JET features for enhanced versatility.

INFLATED, BUT RIGID

Our ultra stiff DWF material is unlike any traditional inflatable. Tens of thousands of high-strength threads are pulled taut to support the spa from within and prevent stretching while adding superior stiffness. The material allows us to keep the inflatable liners aesthetically thin without losing performance.

ALL-IN-ONE CONTROL BOX

Our compact all-in-one control box puts every function at your fingertips—smart, streamlined, and easy to use. Despite its smaller size, it delivers full performance with intuitive operation.

TIDAL now comes equipped with JET functionality, offering even more versatility in a single efficient unit.

SyncJet™ System

Compact While Powerful

SyncJet™ reimagines hydrojet performance in a compact, all-in-one unit. By integrating water intake, pressurization, and ejection into a single self-contained cycle, it delivers a smooth, gentle massage—perfect for everyday relaxation.

No Installation Needed

Best of all, the SyncJet™ unit comes pre-installed inside the spa liner—no extra setup required. Just inflate, power on, and enjoy a relaxing jet massage.

3 Independent Jet Nozzle Sets

- MSpa Link Control: Control your spa anytime, anywhere.
- 3-Speed Bubbles: Switch between bubble intensity levels.
- PTC Safe Heating: Safe, efficient heating up to 40°C (104°F).
- Smart Filtration: Keep water clean with minimal effort.
- UVC Plus Sanitizer: Eliminate harmful bacteria for safer soaking.
- M-shield™ Fabric: Antibacterial liner reduce bacterial buildup.
- All-in-one Control Box: Compact, integrated and full-featured.
- DWF Material: High-stiffness drop-stitch for a rigid, high-performance spa.
- Eco Printing: Clean, precise graphics using eco-friendly inks.
- Eco Packaging: Recyclable materials with reduced plastic waste.

COMFORT SERIES

BACK TO OUR ROOTS

MUSE SERIES

From day one, we've been committed to delivering the ultimate in hydrotherapy comfort. Powerful yet calming, our jet spas offer a deeply immersive experience that soothes the muscles and stills the mind.

Now reimagined for effortless setup and everyday enjoyment, the Muse Series makes true spa relaxation more accessible than ever.

HYDROMASSAGE JETS

Introduce yourself to hydromassage to help soothe muscle aches and pains while relaxing the mind, body and soul.
 * Utilized in Carlton and Otium.

HYDROMASSAGE JET PLUS

Featuring powerful 1100W jet pumps for a strong and more luxurious hydro massage experience.
 * For Indigo only.

M-ONE™ AUTO INFLATION

The 2200W PTC heater not only heats quicker, but also intelligently allocates its power according to the functions currently active on your spa.

MAKE YOUR STATEMENT

PREMIUM SERIES

The PREMIUM Series is made to stand out.

Utilizing a textured faux-leather cover and elegant 3D detailing, it breaks free from flat designs and basic finishes. This is more than just a spa – it's a reflection of personal style and elevated taste.

LUXURY COVER DESIGN

Built to stand out. Our PREMIUM series features a unique removable cover which allows us to bring our wildest design concepts to life without sacrificing on the spa's functionality. Our luxury spa covers feature burlap textures, woven designs, and even wave patterns to elevate your home.

PLUG & PLAY TECHNOLOGY

Say goodbye to complicated installation and setup. Our PLUG & PLAY technology makes it easy to take your spa wherever you go. Simply plug your spa in, rotate the knob, and long press the "GO" button to watch your spa inflate in minutes.

JUST RIGHT. JUST ENOUGH.

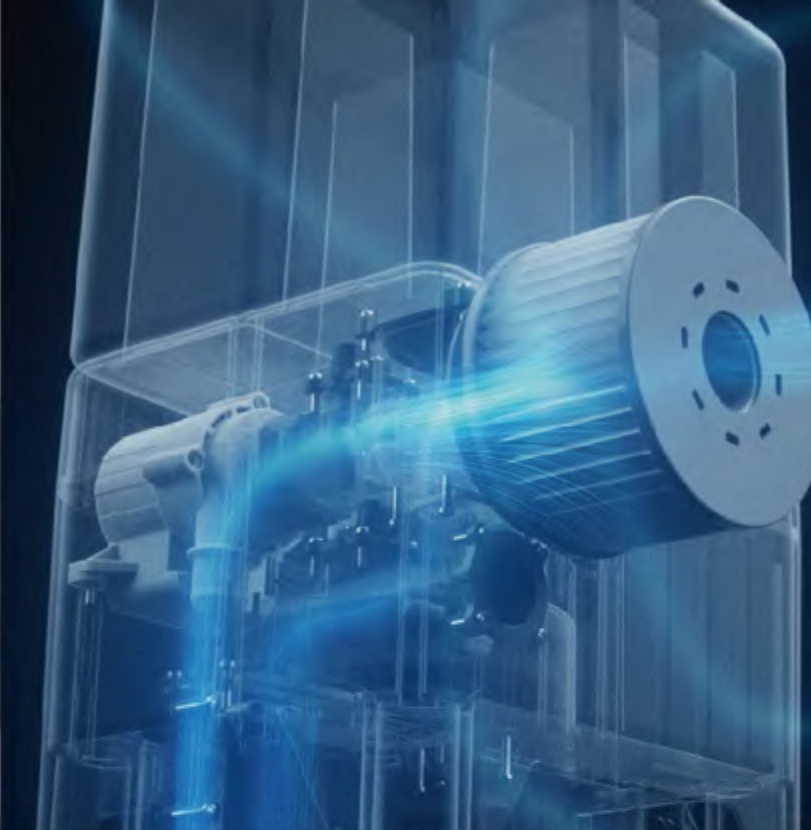

COMFORT SERIES

The COMFORT Series offers all the essentials—thoughtfully integrated for everyday ease.

From gentle bubbling and stable heating to built-in UVC sanitation, every feature is designed to deliver a satisfying spa experience with minimal effort.

QUICK INFLATION

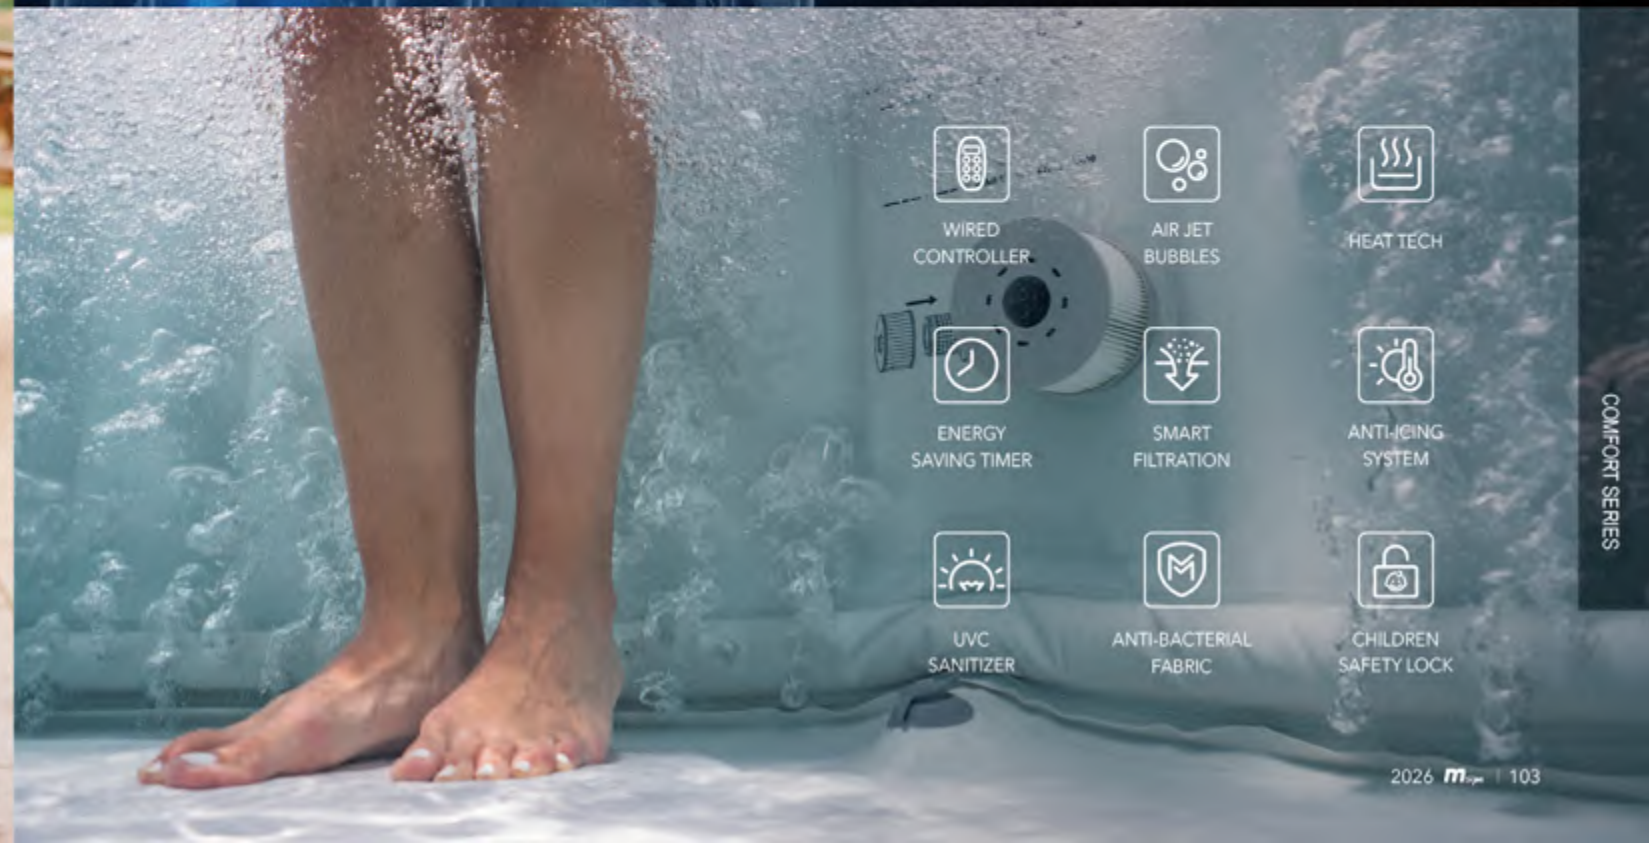

The COMFORT collection uses a simple hose for spa inflation. Utilizing our built-in control box, there is no need to fumble with fussy connectors. Simply connect your hose and click the bubble button to watch your spa rise.

MDC™ High-efficiency Filtration System

MSpa Direct Current System, which consists of a newly designed DC pump, specialized impeller, and water flow piping.

- Stronger water flow: The water circulation speed is increased to 1800 Liters per hour, which is 36% better than before. It even costs lower energy than the last generation pump by 30%.
- Safer to use: With the new TURBOFAN construction, the foreign objects will quickly get through the impeller.
- Longer service life: The super tough X-Ring guarantees 10,000 hours of continuous operation.

AIR JETS DESIGNED FOR SHOULDER AND BACK

MORE INTENSE MASSAGE

Relax, we've got your back!

BUBBLE BACKUP AIR MASSAGE

The most common malady for modern people is muscle pain in the back and shoulders. Bubble backup function precisely targets these muscle groups to give an overall better massage experience,

- 2 additional bubble areas on each side of the control box.
- Create bubbles to deliver a close-contact body massage.
- Provide more intense massage sensation comparing with bottom bubble.

* Only for Fermo / Meteor.

OPTIONAL ACCESSORIES

Filter Cartridge 90 pleats

B0303950 / B0303951

LF90 long fiber filter cartridge. 90 pleats. Twin pack. Additional base is needed for installation.

Size: ø 10.6 x 6.7 cm (ø 4.2" x 2.6")

Cartridge Base

B0303960

The base can be used continuously.

Size : ø 7.5 x 8.5 cm (ø 2.95" x 3.3")

Filter Cartridge Plus Set

B0303952

Long fiber, 90 pleats, filter cartridge*6. Additional base is needed for installation.

Size: ø 10.6 x 6.7 cm (ø 4.2" x 2.6")

Filter Cartridge 120 pleats

B0303961 / B0303962

Twin Pack. Suitable for PREMIUM / URBAN / MUSE / FRAME collections.

Size: 4.5" X 3.4"(11.5 X 8.6 cm)

Comfort Set

B0303959

Two headrests and one cup holder.

Headrest: 24 x 23 x 18 cm

(9.4" x 9.1" x 7.1"). PU, light grey.

Cup Holder: 26.5 x 25 x 17 cm

(10.4" x 10" x 7"). PE, light grey.

Cup holder and headrest 2-in-1

B0304063

Specially designed for DWF spas like MONO / NAVAL / DUET / TIDAL.

PU material, light grey. Twin Pack.

Size: 22.5 x 14.2 x 21 cm

(8.9" x 5.6" x 8.3")

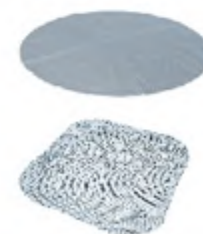

Seat Cushion Set

B0303963

Twin pack. Fill with water. Champagne gold with pearl white color tone.

Size: 39 x 30 x 10 cm

(15.4" x 11.8" x 3.9").

Heat Preservation Mat

One piece bubble mat. Suitable for all MSpa products. Provides better heat retentions result.

B0304001 - for 4-person round spa ø 175 cm (ø 69")

B0304002 - for 6-person round spa ø 200 cm (ø 79")

B0304003 - for 8-person round spa ø 220 cm (ø 87")

B0304004 - for 4-person square spa

155.4 x 155.4 cm (61" x 61")

B0304005 - for 6-person square spa

183.2 x 183.2 cm (72" x 72")

Upgraded Heat Preservation Foam Mat

B0303967 / B0303968

Waterproof material. Connect each piece to make a square mat (pcs/pack). Protect your spa and deck. Save energy by providing thermal barrier.

Size: B0303967: 59 x 59 cm / pc (23"x 23")

B0303968: 68 x 68 cm / pc

(26.8" x 26.8")

Ice Box & Snack Holder

B0303964

Five cup holders around the side and center storage for ice, drinks or snacks. 65 x 45 cm (25.6" x 17.7").

Inflatable Foot Bath

B0303966

Rinse your feet before entering the spa. 88 x 68 x 13 cm (34.6" x 26.8" x 5.1").

Offset Patio Umbrella

B0304000

Size: 300 cm (10').
Height: 250 cm (8'4").
Metal frame, polyester fabric umbrella. Easy installation and maintenance.

Canopy

B0303999

Keep the spa from UV and wind. Customized for MSpa products. Fit to all MSpa 2/4/6-person inflatable spas. UPF 50+

Inflatable Can Cooler

B0303965

Holds drink bottles or towels. This can also be used as ice can to keep drinks cool. 42 x 51 cm (16.5" x 20.1").

Rotary Jet Set

B0304876

Delivers rhythmic pulsations and a tapping sensation through rotating water streams for ultimate relaxation. Suitable for F-OS063W/WP/WAP; F-AM063W/WAP; F-SA063W

Nozzle: ø 5.3 x 8.8cm (ø 2.1" x 3.5")
Tool: ø 5.3 x 4.2cm (ø 2.1" x 1.7")

Floating Lamp

B0303954

5 lighting modes
Static mode / Flash Mode / Strobe Mode / Fade Mode / Smooth mode
Size: 12 x 12 x 12 cm (4.7" x 4.7" x 4.7")
Charging cable included. Plug is not included.
Need 1* CR2025 coin battery (Not included) for the controller.

Underwater LED Light

B0304062

Underwater LED light with a hook and a remote controller, IP68, CE Certified. Hang on the filter cartridge base. Need 3 * AA batteries (Not included) for the light and 1 * CR2025 coin battery (Not included) for the controller.

Spa Overall Cover

Protect spa tub from rain and sunshine.

B0303956 - 2 person spa.

195 x 100 x 70 cm
(77" x 39.5" x 27.5")

B0303955 - 4-person spa.

190 x 70 cm (75" x 27.5")

B0303957 - 6-person spa.

215 x 70 cm (85" x 27.5")

B0303958 - 8-person spa

235 x 70 cm (93" x 27.5")

Inflatable Bladder

Place the cover onto the spa pool. The inflatable bladder provides better heat preservation and rain outflow.

B0303971 - For 4-person round spa

B0303972 - For 6-person round spa

B0303973 - For 8-person round spa

B0303974 - For 4-person square spa

B0303975 - For 6-person square spa

MSpa Thermal Cover

Provide extra heat preservation and save up to 50% energy consumption!

(43.3" x 11.8" x 22.8")

C: Wicker Step
B0303098 - 85 x 30 x 22 cm
(33.5" x 11.8" x 8.7")

MSPA TECHNOLOGY

TIMELESS STYLE

We utilized plastic wood panels to recreate the beautiful rigidity of traditional spas without sacrificing any of the portability. Strong enough to withstand water pressure, the pieces lock together to create a rigid frame. The pieces are textured with delicate wood-grain like ripples for an aesthetic touch.

SUPERIOR EMBOSSED FABRIC

AcrySkin™ Material Liner

Engineered for clean performance. This advanced material merges flexible PVC with an acrylic-based coating for superior stain resistance and durability. It repels buildup more effectively than standard materials—wipe it clean in a single easy stroke. Its stable composition resists chemical damage, ensuring long-term clarity and comfort.

RHINO-TECH REINFORCED PVC COVER FABRIC

- UV, Frost and Tear Resistant
- Durable and Tough Reinforced PVC
- User Friendly
- Appealing Look
- Eco-friendly
- Supported by MSpa Warranty

PVC Layer Both Sides

Reinforced Coating Layer
Double Sided

UV Protection Layer

Laminated
Fabric Layer

NON-SLIP BOTTOM

Every detail matters, even the areas no one sees! We created a subtle bump texture on the base of our spas to provide additional friction and grip. The non-slip bottom effectively counters the slipperiness of greasy film and scale formed by microorganisms to prevent dangerous falls.

M-shield™

ANTIBACTERIAL FABRIC

Clean water is the most essential foundation of a good hydromassage. Our antibacterial fabric is applied to the inner liners of our spas to enhance the sterilization performance. The fabric releases bactericidal components to reduce the reproduction of bacteria by 99%.

*Conforms to ISO 22196:2011

LUXURY COVER DESIGN

VIVID PRINTING FABRIC

HYDROMASSAGE JETS PLUS

Going beyond just comfort, hydromassage provides amazing health benefits for your mental and physical health. Enjoy an immersive at home experience that has been shown to relieve muscle soreness and tension, soothe minor aches and pains, and reduce stress and anxiety.

- A powerful 1100W jet pump offers our strongest water jet system to create the most relaxing massage experiences.
- The jet angle and water pressure can both be adjusted to your personal preference.
- 4 sets of 8 nozzles for multiple people to enjoy the massage.
- Warm jets: while enjoying the JET massage, the heater can be turned on to keep the water warm, giving you a real hot spring experience.

* For INDIGO / OSLO / OSLO (AERO) PLUS / AMBER (AERO PLUS) / SAPPHIRE.

EcoPulse™ Hydro Jet

Smarter engineering, better performance. Our 750W system uses Bernoulli and Venturi principles to replicate the power of a 1100W jet—enhancing flow while reducing energy use. The nozzle direction is adjustable for targeted comfort, delivering an efficient, eco-friendly hydrotherapy experience.

* Jet intensity not adjustable.
For ROVA / DENVER

Hydromassage Jet

Our original Hydromassage Jets are perfect for beginning your hydrotherapy journey. Offering basic hydromassage, our jets aid in reducing muscle aches and pains while relaxing the body and mind. We've removed complex setups by building our jet pumps directly into the spa control. Set up your spa in one go and pack it up for storage and portability with ease.

* For CARLTON / OTIUM.

SyncJet™ System

Compact. Versatile. Thoughtfully engineered.

SyncJet™ reimagines hydrojet performance in a compact, all-in-one unit. By integrating water intake, pressurization, and ejection into a single self-contained cycle, it delivers a smooth, gentle massage—ideal for everyday relaxation.

Its streamlined design adapts easily to a wide range of spa structures, unlocking new possibilities without added complexity. By eliminating long internal pipework, SyncJet™ reduces the risk of system-wide failures. Its independent pump module is easy to replace, making maintenance more efficient and cost-effective.

Each SyncJet™-enabled spa features three jet units—delivering elevated functionality for users who want enhanced features without the added weight or cost of larger systems.

* For TIDAL / COCOON.

<<< All Around Bubble

For a truly immersive experience, our Air Jets Massage System creates thousands of bubbles from the bottom of the spa to surround you from all angles. Unlike our Hydromassage jets which are limited to 3-4 people, our Air Jets Massage System can be enjoyed by everyone in the tub at once! Our spas feature variable-speed bubble systems so you can adjust the bubble level based on your personal preference.

Note: the COMFORT Series spas only have one bubble level.

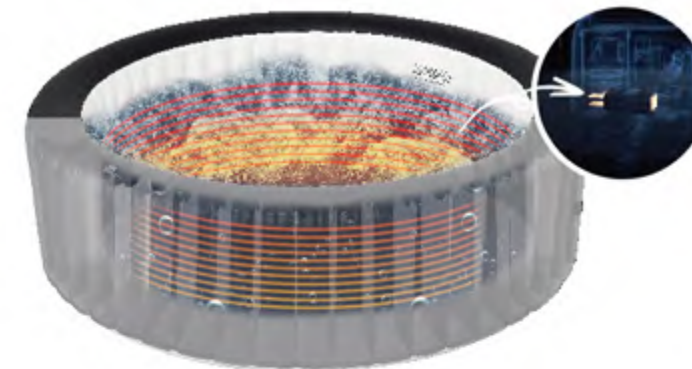

Bubble Backup >>>

Our Bubble Backup system directly targets two of the most common problem areas causing discomfort. Enjoy a bubble massage for your shoulders and back by positioning yourself in front of the convenient panels on either side of the control box. The bubbles make direct contact with the skin rather than dispersing into the water for a more powerful massage experience.

Note: only for Fermo / Meteor.

⚡ Anti-icing™ System

Our Anti-icing System protects your spa and control box from freezing and damage in frigid temperatures by automatically warming the water to 3°C whenever the water falls to less than 1°C. The system acts as a safety measure when a storm rolls in or the spa is accidentally left in sub-zero conditions.

🕒 Heating Timer

We all know spas can take some time to heat up and sometimes the time to start heating your spa isn't the most optimal. To solve this, we introduced heating timers. Simply set a time to wake up your spa heater and go about your day as normal. Our timers can be set 1 to 99 hours in advance so you can plan for any occasion.

🔥 PTC Heating QUICK · SAFE · SMART

Safe: Dual insulation keeps water completely isolated from electrical components. Mechanical thermostats and software safeguards work together to prevent overheating.

Smart: The high-power heater intelligently adjusts output based on active spa functions. Even when Bubble or Jet modes are on, it maintains consistent heating at lower power—keeping water warm without interruption.

Durable: An internal anti-corrosion coating protects the heating element, extending service life, minimizing chemical damage, and reducing scale buildup over time.

The Best Filtration System Ever

MEET MDC.™

Our MSpa Direct Current system is our most advanced filtration system yet. Featuring a brand new DC pump with specialized impeller, the system offers stronger water flow and increased circulation speed of 1800 liters per hour, a 36% improvement to our previous system and superior to current pumps on the market. Although the system boasts stronger water flow, we've cut energy consumption by 30%! Feel peace of mind as our TURBO fan construction pushes foreign objects through with ease and enjoy for years to come as the new x-ring guarantees 10,000 hours of continuous operation.

UVC

Powerful UVC sanitation kills over 60 disease-causing microorganisms and pathogens without the use of harmful chemicals. Our sanitizing chamber is housed inside the spa's control box and continuously sanitizes water that passes through the chamber. Since you will never come in contact with the UVC light, this setting can be turned on while you are enjoying your spa.

SMART FILTRATION

Auto Filtration

Our smart filtration system automatically keeps your spa water clean and ready—running a 60-minute filtration cycle every 8 hours while in standby mode. Whether indoors or outdoors, your spa is always prepared for your next session.

Cleaning Reminder

Smart Filtration does not replace water changes or water treatment. We recommend replacing the water monthly and treating it weekly. Worried you'll forget? A reminder will pop up weekly when the spa is in regular use.

Self-Cleaning Mode

Automatically flushes the filter pump after use—keeping your spa cleaner with zero extra effort.

Available only for FRAME / VERTO SERIES.

It's All In Your Palm

MSPA APP.

Say goodbye to the days of reaching over your spa or worse, having to get out of your relaxing soak, just to change some settings.

With our new innovative spa app:

- Have full control of your MSpa at all times right at your fingertips
- Enjoy the easiest operation and usability through our intuitive UI
- Easily receive tips, notices and alarm alerts on the go so you're always in the loop

The MSpa APP is available on FRAME Series, VERTO Series and Indigo spa.

Now Upgraded to 2.0!

Introducing the new TASK Module

Plan, automate, and forget the hassle. The updated MSpa Link™ lets you schedule heating, cleaning, and more – with personalized one-time or recurring tasks.

Plan It Your Way

Customize your spa routine with flexible scheduling. Set dates, repeat actions, or combine multiple functions. Your spa, your rules.

Reduce Daily Chores

No more relying on memory to maintain water quality—the app takes care of it for you. Stress-free, consistent, and always on time.

Smart Calculation, Easy Planning

The built-in Auto Calculation feature recommends the best heating start time based on your command. Just tell the app when you want to soak—and it does the rest.

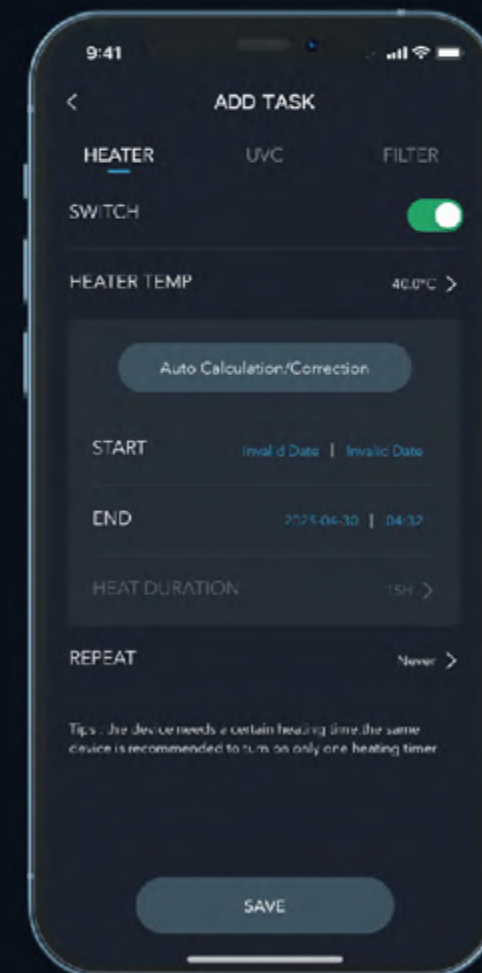

Heating Countdown

No more guessing wait times. Once heating begins, a dynamic countdown appears on the home screen and auto-adjusts every 30 minutes based on local weather and water temperature.

TASK

M-ONE™ AUTO INFLATION

Our patented inflation system allows you to set up your spa in one easy step. Press the BUBBLE and UP buttons at the same time to watch your spa magically come together before your eyes. There's no need to install an additional control box and the self-inflation can intelligently monitor pressure to know when to stop inflation. Simply press and go!

* URBAN / MUSE Series

Quick Inflation

Smart Touch

User-friendly

PATENTED BUILT-IN CONTROL BOX

Forget bulky external units—our patented built-in control box simplifies everything

EASY INSTALLATION

No need to install a heavy external control box. Just press the button and watch your spa rise.

LOW RISK OF LEAKAGE

Fewer connectors, fewer problems. No more air or water leaks from messy setups.

ULTRA-LIGHT & COMPACT

Designed for easy transport and storage, it fits effortlessly into your lifestyle—whether at home or on the go.

PLUG AND PLAY

No need to install an external control box or extra hose. Just rotate the knob and long press the Bubble button — your spa inflates in minutes.

* Premium Series

QUICK INFLATION

Thanks to the built-in control box, setup is simplified to just one hose to connect and one button to press.

* Comfort Series
